AGGREGATE
Securely collects your organisation's employee, vehicle and learning data, from a wide range of data sources to help identify and manage driver & fleet risk.

STANDARDISE
Proprietary normalisation methods of each data source, ensuring all data is comparable and consistent.

MANAGE
Unparalleled insight into risk and compliance management through real-time dashboards and MI.

Driver Risk Management

TTC Continuum's real-time 24x7x365 delivery of driver and fleet risk data makes managing any organisation's fleet a much simpler process, helping to drive decision making and focusing fleet management resource to where it is needed most.
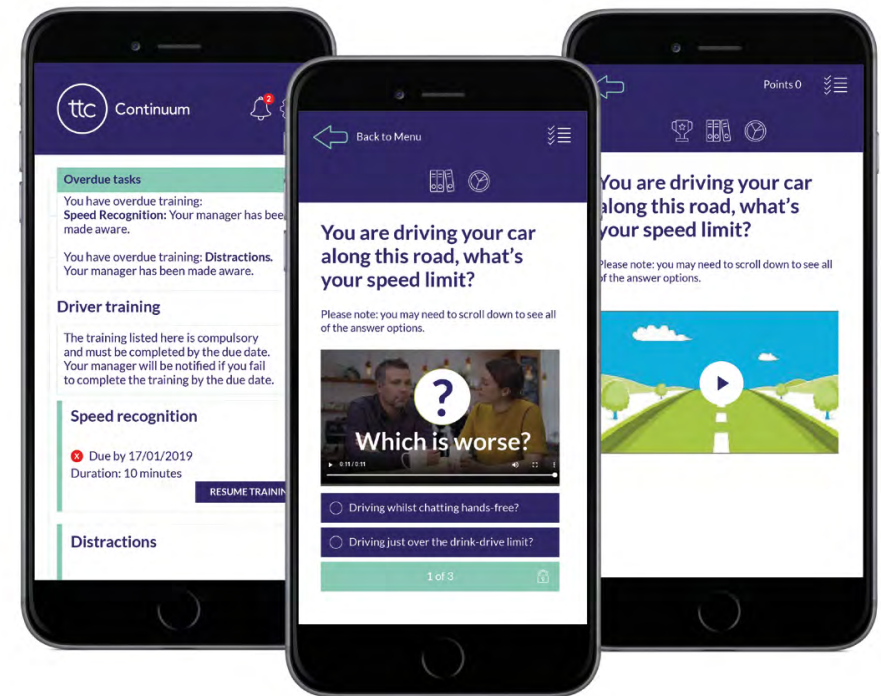

With the TTC Continuum online driver risk management platform, you can easily and quickly manage your entire driving community from a single online platform and ensure real-time compliance with HSE legislation.

TTC Continuum is developed using the latest cloud technology to help manage your driver estate with ease from any internet connected device.

Live data, visual dashboards, tasks and alerts provide accurate insight into driver compliance, risk and learning activities.

The TTC Continuum platform aggregates driver data in real-time from each of our products and services, enabling fleet managers to instantly understand:

- **Is my overall risk profile going up or down?**
- **What risky behaviours are occurring most often within my business?**
- **What employees are displaying those behaviours most often and how can I address this?**
- **What incidents are happening right now that I need to respond to?**

TTC Continuum

End-to-end driver risk management with Continuum.

Complete lifecycle of compliance, administration, driver and vehicle management with one easy-to-use online platform.

Continuum, online driver risk management portal, provides a cost-effective solution to manage your entire driver community from one user interface improving driver safety and meeting compliance requirements.

Driver Risk Management

Expert trainer panel
Our people have years of industry experience, not just as trainers but working as experts in behavioural change.

National coverage
The capability to deliver nationally and beyond. With nearly 300 UK locations and access to a 500 strong trainer panel.

Educate across the mobility ecosystem
From first journeys to later years, we are educating people to be safer when on the move – pedestrians, cyclists, bikers and drivers.

Tailored solutions
We deliver timely, purposeful, individual and tailored education programmes – workshops, on-road coaching, e-learning and other timely driving interventions.

Quality
We understand the importance of delivering quality and value to our clients and consistently strive for excellence.

Robust performance reporting
Clients and drivers are provided with regular reports, highlighting changes in risk levels.

Dedicated account management
Our clients are supported by a team of professionals that understand the importance of quality and speed, providing "open door' access at all levels.

Improving lives and protecting people
The well-being and safety of our clients and the lives we positively impact in broader society are central to our existence.
