

# Drug and Alcohol Screening Solutions

Reduce risk and fleet operating costs by ensuring your employees are fit to drive

- Format: Education, policy and screening devices
- Location: Available nationwide
- Price: Dependent on requirements

# Overview

---

Access to consultancy and screening devices to support our clients in reducing risks of their drivers committing drink drug driving through policy, education and deterrent.

Evidence suggests drug driving convictions are overtaking those for alcohol.

# Scale of the problem

---

In 2021, drugs were detected in 20% of all deceased drivers in the UK, this compares to 11% in 2014.

1 in 11 adults (3.2m. people) had taken a drug in the last year

1 in 20 adults had taken a drug in the last month

In 2020, 6,480 people were killed or injured in a road traffic accident involving a drunk driver in Great Britain

# Benefits to your organisation

---

## Reduce your drivers' risks

Screening will reduce driver risks, downtime, fleet running costs by ensuring your drivers are fit to drive

## Meet your duty of care

Services are designed to help you meet your duty of care obligations

## Improve your drivers' health and well-being

- Generate awareness of the impact of alcohol and drugs on health and in the workplace
- Promote safe driver behaviour aligned with your company's policy and public image

# Delivery method

---

Our approach is simple – we work with your organisation to design a drug and alcohol policy and screening solution which suits you perfectly.

**Consultancy:** access to experts in the field of road safety services and screening solutions

**Screening devices:** accurate and efficient, reliable solution developed with employee dignity in mind

**Policy:** expertly designed to create change and deter workforce against drink drug driving

**Education:** scalable and flexible programme of employee education with access to online learning solutions or face to face workshops

# Who should engage in these services?

Any business employing drivers or machine operators where there is a requirement to be 100% fit to drive or operate a piece of machinery.

Through our specialist partners we adopt the principle of detect to protect and education.

# Outline of screening devices

---

- Solution currently used by all 43 Police Forces in England and Wales plus Scotland
- Screening device backed up by a LC/MS chain of custody laboratory confirmation service
- Market leading DrugWipe Dual and Drager Breathalyser screening solutions
- Home Office type approved brands
- Fully portable screening solution, no need for additional readers
- Accurate and efficient, a reliable solution developed with employee dignity in mind
- Results in just 5 minutes
- Screening for Cannabis, Cocaine, Opiates, Amphetamines, Methamphetamines and Ecstasy

# Logistics

---

We would initially engage in consultation with you to identify your individual requirements and engage with our specialist alcohol & drug screening partners.

Through our partners we would review your current driver policies around drink and drugs as well as your contracts of employment.

Through this consultation process we would create practical policies as well as work with you to implement changes and to engage with drivers, machine operators and any unions through educational and engaging workshops.

We will provide training to staff engaged in undertaking the screening or provide screening through our partners.

The solution is driven by your requirements and drive to meet your duty of care.

Our priority is to educate, detect and protect.
